

WHITE PAPER · 2026

Puzzld

Any topic. Any age. Safe, printable learning in minutes.

How Puzzld helps teachers, schools, parents and families turn whatever kids are learning or loving this week into puzzles, worksheets and activities, with safety built in from the start.

puzzld.codefrontlabs.com · For schools · For parents · For families

Executive summary

The right puzzle for this week, in minutes

Teachers and parents spend hours hunting for activities that match what kids are actually learning. Puzzld makes them on demand. Type a topic, pick an age, and get printable puzzles with answer keys, checked for safety and matched to the reading level.

10
kinds of puzzles and worksheets

5
age groups, Pre-K to teens and adults

9
free tools, no account needed

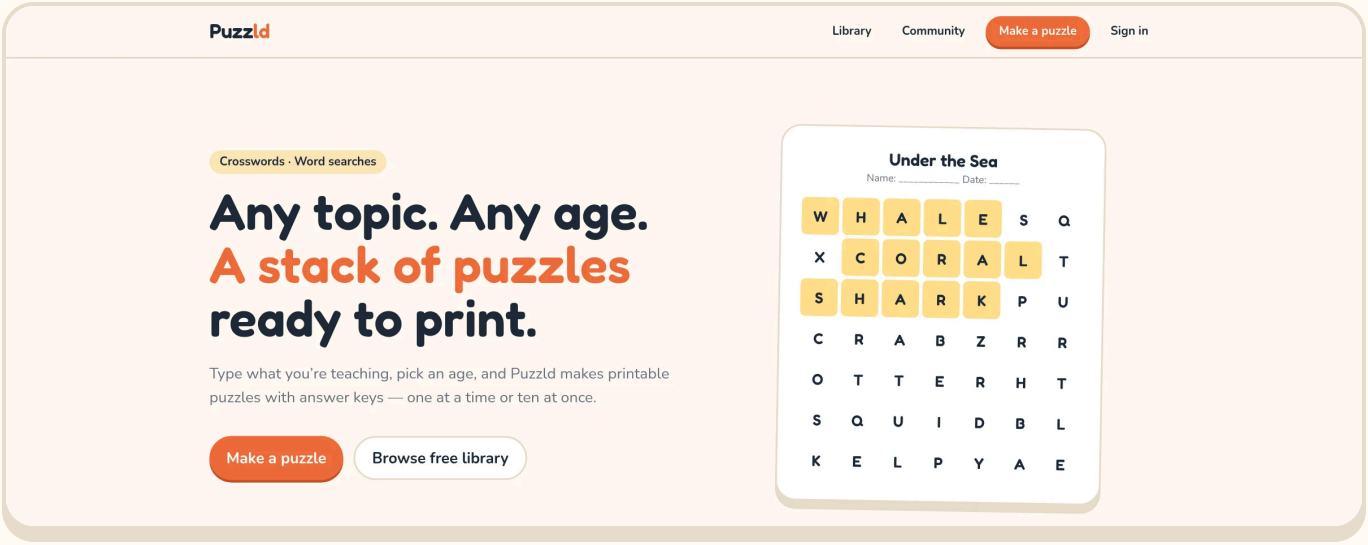

$0
to start: 10 free credits every month

The challenge

- **Generic worksheets miss the topic.** Puzzle sites rarely have this week's vocabulary, unit or story.
- **Making them by hand is slow.** A crossword with clues and an answer key can take longer than the lesson it supports.
- **Reading levels vary.** One sheet rarely fits a Pre-K group and a 5th grade class.
- **Screens worry parents.** Families want something kids enjoy that isn't another app full of ads.
- **AI tools aren't built for kids.** General chatbots aren't designed to keep content safe for a five-year-old.

The Puzzld answer

- **Any topic, on demand:** spelling lists, science units, Bible stories, holidays, dinosaurs, a family trip.
- **Matched to the age,** from big letters and short words to full crosswords.
- **Print-ready PDFs** on US Letter or A4, each with an answer key.
- **Safety at every step,** with multiple checks before anything reaches a child, and no ads.
- **Classrooms built in:** students solve on screen and teachers see progress.

The Puzzld homepage at puzzld.codefrontlabs.com.

How it works

Three steps from idea to printout

1

Type a topic

Anything you're teaching or your kids love. Or paste your own word list, like this week's spelling words.

2

Pick an age and type

Choose Pre-K, K–2, grades 3–5, grades 6–8 or teen and adult, plus easy, medium or hard.

3

Print or play

Download a PDF with an answer key, solve it on screen, save it, or share it with a private link.

Ten kinds of puzzles and worksheets

Make one, ten of one kind, or a mixed pack.

🔤 **Word search**
Hidden words sized to the age

✏️ **Crossword**
Clues written for the level

📖 **Story fill-in**
A short story with blanks

🌀 **Maze**
Help a character find the way

⭐ **Dot-to-dot**
Connect dots to reveal a picture

🔍 **Spot the difference**
Two pictures, find the changes

🦉 **Odd one out**
Find the one that's different

🧸 **Read-aloud tale**
Short, medium or long stories

📚 **Reading comprehension**
Passage plus questions

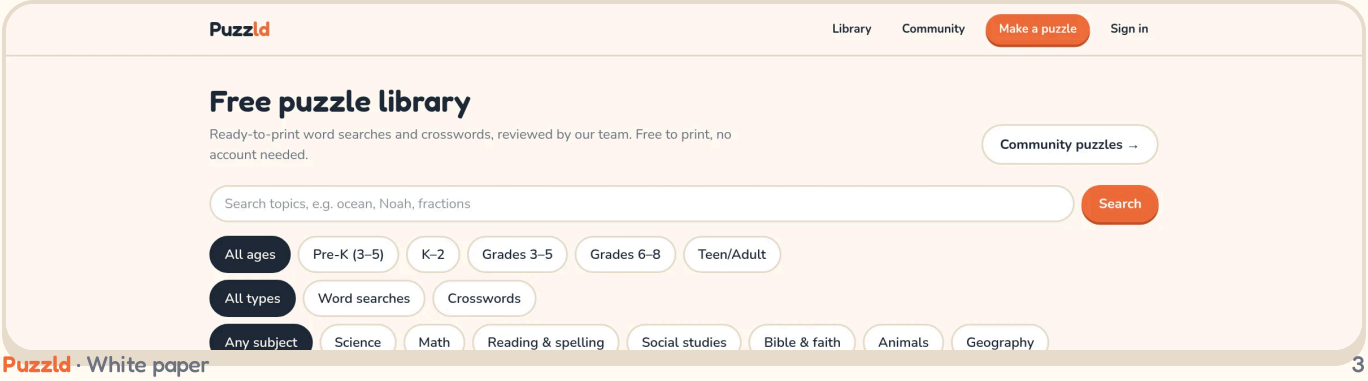

📝 **Writing prompt**
Word bank, plan and checklist

Ready-made libraries

Not sure what to make? Browse the **free library** of puzzles reviewed by the Puzzld team, filtered by age, type, subject and season. Or browse the **community library** of puzzles shared by teachers, parents and leaders. Anyone can print from either without an account.

Your own words, your own lists

Paste a spelling or vocabulary list to make word searches and crosswords from exactly those words. Save topic lists to reuse all year, keep your puzzles in one place, and reprint any time.

FOR TEACHERS AND SCHOOLS

Give every class puzzles that fit the lesson

Puzzld fits the way classrooms already work: print a stack for morning work, early finishers or a sub plan, or assign puzzles on screen and let progress track itself.

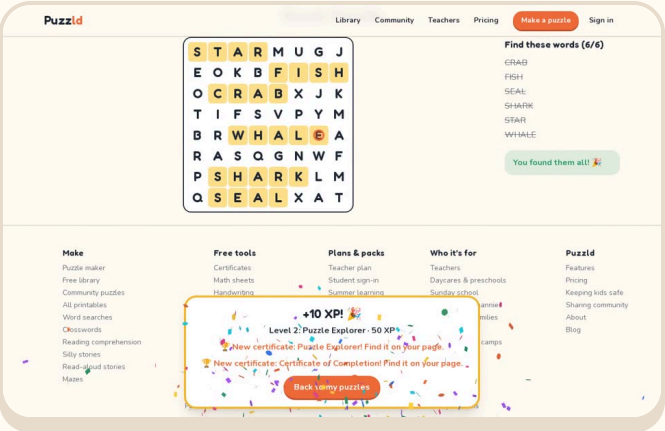

Benefits in the classroom

- **Saves prep time.** A week of topic-matched activities in minutes, with answer keys.
- **Supports every reader.** Make the same topic at different levels for different groups.
- **Reinforces vocabulary.** Turn spelling and unit word lists straight into puzzles.
- **Covers literacy skills.** Reading passages with questions and writing prompts with word banks and checklists.
- **Great for sub plans,** centers, early finishers, indoor recess and homework.
- **Free classroom printables:** certificates, name tags, reward charts, bingo, flashcards and more.

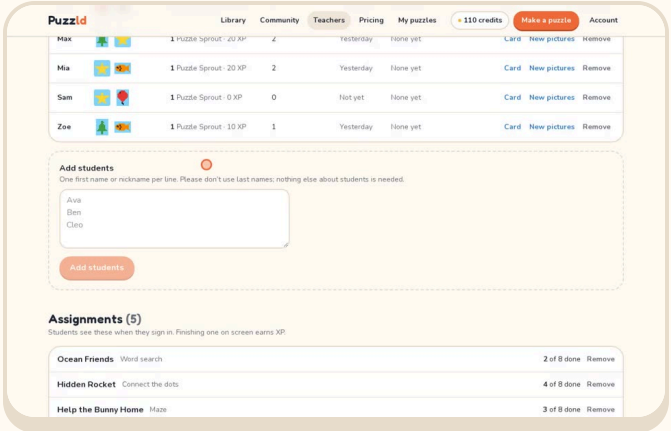

The Teacher plan

Class accounts that need no student emails:

- **Kid-friendly sign-in:** a class code and two secret pictures, no passwords to forget
- **Assign any puzzle** for students to solve on a tablet or computer
- **XP and levels** that keep kids motivated
- **Certificates, automatically,** printed with each student's name
- **A progress grid** showing who's finished, who's stuck and who hasn't started
- Up to **35 students** and **100 credits every month**

A student finishes a puzzle, levels up and earns a certificate.

The teacher's view of the whole class's progress.

For school leaders: students never create accounts. Teachers enter a first name or nickname only. No emails, last names or photos are collected, students never see ads, and a teacher can delete a student or a whole class at any time. Puzzld doesn't sell data or show ads to anyone.

FOR PARENTS

Safe for kids by design, not as an afterthought

Puzzld is used in classrooms, daycares and Sunday schools, so the safeguards were built in from day one. Every puzzle passes several independent checks before it's made.

1

Every topic is screened first

Topics are checked against a word list, then by an AI reviewer that blocks anything sexual, violent, hateful, drug-related or profane. It also catches innocent-sounding requests meant to sneak around the rules. If a topic is blocked, nothing is made and no credits are charged.

2

Words matched to the age

Words that are too long or too hard for the age group are removed, and a second check drops anything unsuitable. Pre-K sheets get short, picture-able words.

3

Stories and passages reviewed

Stories, read-aloud tales, reading passages and writing prompts get an extra review for safety, and reading passages are also checked for accuracy.

4

Pictures we drew ourselves

Picture puzzles and coloring pages use Puzzld's own drawings and patterns, never images pulled from the internet.

5

A community you can trust

Shared puzzles are checked before they go public. Anyone can report a puzzle or block an author, and reported puzzles are hidden automatically.

No ads, ever

No ads for you or your kids, and your information is never sold.

Kids don't need accounts

Accounts are for adults. Kids print and solve without one, and progress stays on your device.

Screen-light learning

Puzzles are made to print: pencil, paper and a kitchen table.

Why parents use Puzzld

- **Turn obsessions into learning:** sharks, space, a favorite show, trucks.
- **Back up schoolwork** with this week's spelling words or unit.
- **Beat "I'm bored"** with a stack of puzzles on the counter.
- **Learning at their level,** from Pre-K up to teens.

FOR FAMILIES

Road trips, rainy days, parties and summer break

Packs bundle several puzzles around one occasion, so a whole afternoon's activities print in one go.

✈️ Trip packs

Going to the beach, a national park, grandma's town or another country? Type the destination and kids get a pack about it that reads like a guide:

- A reading passage on where it is and its history
- A word search of things to see, eat and do
- A crossword of fun facts
- A postcard-home writing prompt and a funny story
- For Pre-K: a read-aloud tale, a dot-to-dot and a maze

☀️ Summer learning

Beat the summer slide, one packet a week. Pick your child's grade and how many weeks of break you have. Each week brings a new theme based on their interests with:

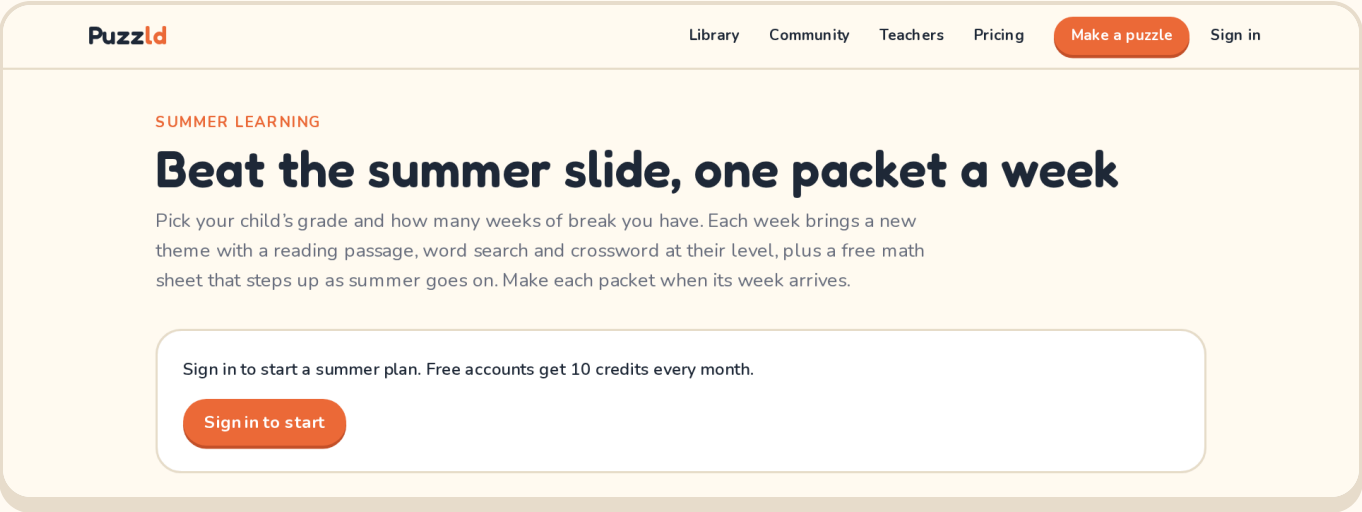

- A reading passage at their level
- A word search and a crossword
- A free math sheet that steps up each week
- For Pre-K: a tale, a word search and a maze

🎉 Party packs

Pick two or three party themes, like unicorns and pirates, and get a mixed pack of puzzles for a birthday party, sleepover or holiday table, for 5 credits.

🍰 Restaurants and car rides

Keep a few puzzles in the bag. Mazes, dot-to-dots and odd one out work for little ones who can't read yet, and word searches and crosswords scale up for older kids.

The summer learning planner.

FOR KIDS

Puzzles about the things they love

Kids don't see a worksheet. They see a maze to help the bunny home, a hidden rocket to connect, or a word search about their favorite animal.

Made for their age

Big letters and pictures for little ones, real challenge for older kids.

Solve on paper or screen

Print it, or play it on a tablet with instant checking and a celebration at the end.

Level up

In a class, kids earn XP, climb levels and get certificates with their name.

Free tools

Nine free tools, no account needed

Free to use, free to print, and nothing is saved.

🎨 Coloring pages
Mandalas, patterns, animals filled with patterns, name pages, color by number and mystery pixel pictures. A new design every page.

🏆 Certificates
Awards for any achievement, in several designs

➕ Math sheets
Practice sheets with ranges you choose

✍️ Handwriting
Tracing and practice lines

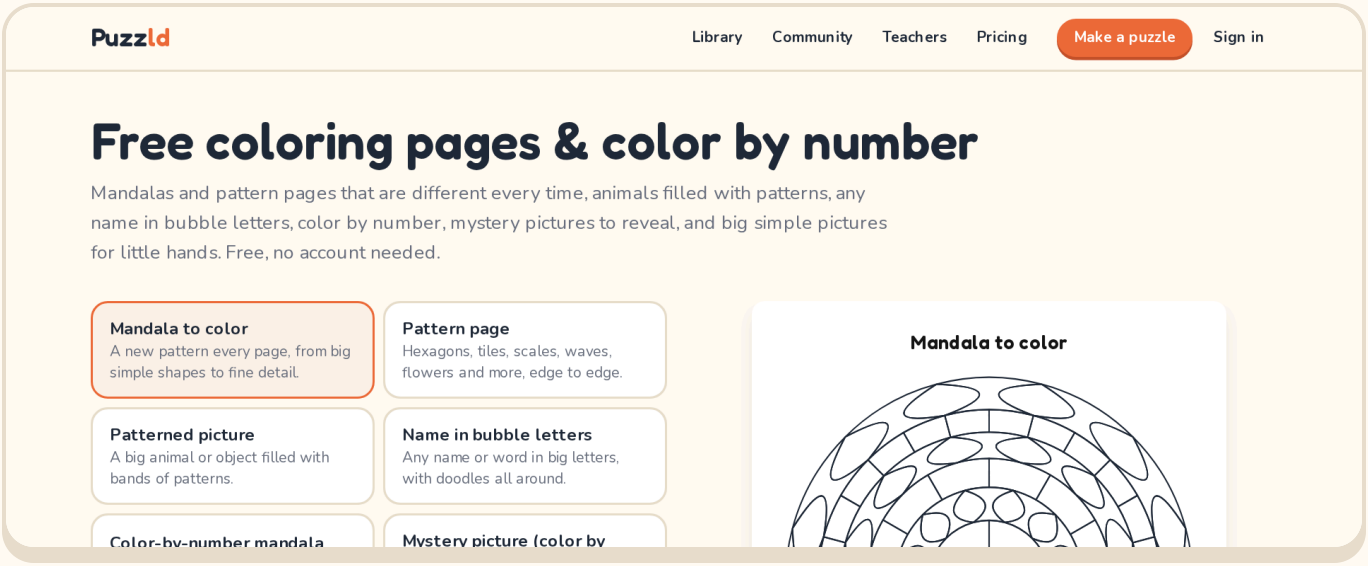

🔡 Spelling
Practice sheets from your word list

🎲 Bingo
Printable cards on any word list

⭐ Reward charts
Sticker and star charts

🃏 Flashcards
Cut-out cards for any list

🏷️ Name tags
For desks, cubbies and the first day

The free coloring page maker.

Pricing

Start free. Pay only for what you make.

Every account gets 10 free credits a month. Most puzzles cost one credit. Purchased credits never expire, and if a puzzle can't be made, its credits come back automatically.

Free
$0
10 credits every month, the free library and every free tool.

Starter
$4.99
30 credits, about 17¢ each. Never expire.

Classroom
$14.99
120 credits, about 12¢ each. Never expire.

School year
$39.99
400 credits, about 10¢ each. Never expire.

Teacher plan
$7.99/mo
or $59/year. Up to 35 students, 100 credits a month, XP, levels and certificates.

What it costs	Credits
Word search, crossword, story, maze, dot-to-dot, spot the difference, odd one out, writing prompt	1
Reading comprehension	2
Read-aloud tale (short / medium / long)	1 / 2 / 3
Party pack	5
Trip, summer and mixed packs	sum of puzzles
Word search from your own word list, free tools, libraries	Free

Cost in practice

- The free 10 credits cover a weekly puzzle for a class, every week.
- A School year pack makes a puzzle every school day for about 10¢ each.
- The Teacher plan's 100 monthly credits are about 5 puzzles every school day.
- Secure checkout by Stripe. Puzzld never sees card numbers.

Who else uses Puzzld

⛪ Sunday schools
Bible stories and faith topics welcome, in any tradition.

🧸 Daycares and Pre-K
Picture clues, mazes, dot-to-dots and tales for pre-readers.

🏡 Homeschool
Topic-matched puzzles for every subject and grade.

🏕️ After-school and camps
Themed packs for a group, ready the same day.

👶 Babysitters
A stack of quiet activities in the bag.

🏫 Whole schools
Each teacher on their own plan. Contact us about more.

Getting started

Up and running in five minutes

1
Visit **puzzld.codefrontlabs.com** and browse the free library.

2
Sign up free with Google or email for 10 credits a month.

3
Make your first puzzle on this week's topic and print it.

4
Teachers: start the Teacher plan and add your class.

Frequently asked questions

Is the content accurate?

Puzzles are checked automatically, and reading passages are checked for accuracy. AI can still make mistakes, so give a puzzle a quick look before handing it out.

Do kids need an account?

No. Kids print and solve without one. On the Teacher plan, students sign in with a class code and two secret pictures, with no email or password.

What data do you collect about students?

Only the first name or nickname the teacher enters, the two secret pictures, finished puzzles and XP. No ads, and nothing is sold.

Can I use my own word list?

Yes. Paste spelling or vocabulary words to make word searches and crosswords from exactly those words.

Can I share puzzles with other teachers?

Yes. Share with a private link, or publish to the community library after a safety check.

Can I sell the puzzles?

Puzzles are for classrooms, groups, homes and other non-commercial use, not resale.

Can I cancel the Teacher plan?

Any time, from your account. Purchased credits never expire.

Puzzld

Any topic. Any age. A stack of puzzles ready to print.

SAFETY AND PRIVACY
/safety · /privacy

Puzzld is built by Codefront Labs (codefrontlabs.com). Prices in US dollars, current as of November 2026 and subject to change; see puzzld.codefrontlabs.com/pricing. Screenshots from the live product and a demo class.

NEW · FOR FAMILIES

A reason to come back every day

Ten minutes a day beats an hour once a month. Puzzld now turns regular practice into a game kids want to keep playing, and keeps parents in the loop without extra work.

A daily puzzle

A free new puzzle every day for each age, from the reviewed library. Solve it on screen or print it, no account needed.

Streaks and challenges

Solving builds a streak. Then send a “beat my time” link to a friend. It carries the time, never a name.

Badges to print

Levels, milestones and 3- to 100-day streaks earn badges, and each one prints as a certificate.

Family plan

Puzzles that grow with each child

Everything below comes with a free family profile.

🎯 The right difficulty
The maker suggests easier or harder puzzles from how each child’s last few went.

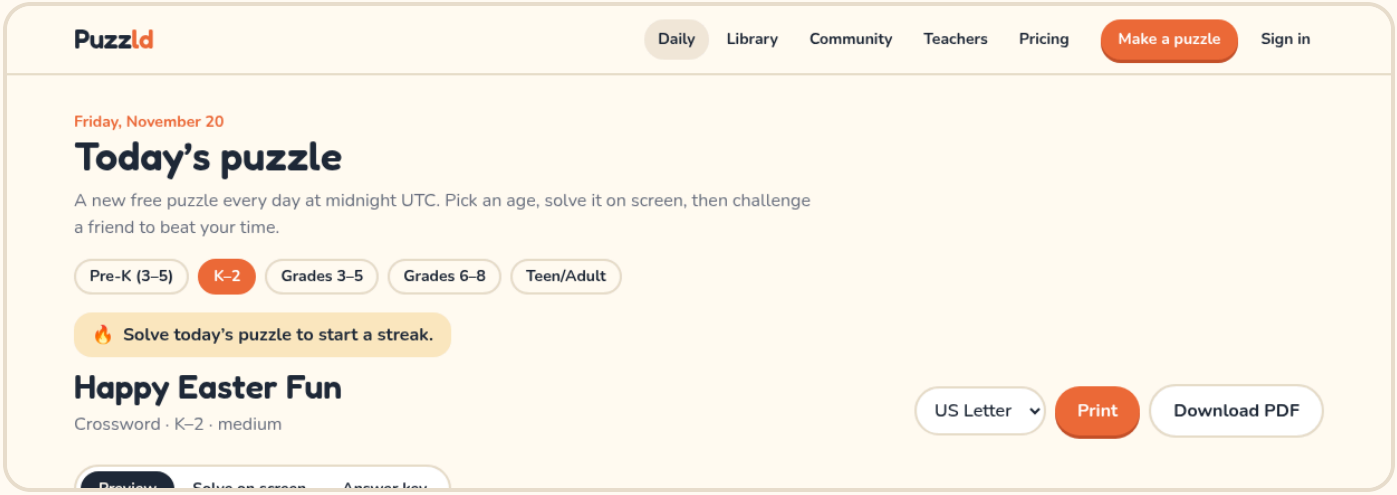

✉️ Weekly summary
An optional Sunday email with what each child finished, XP and streaks.

⭐ Bonus XP
The daily puzzle earns extra XP, and streaks follow kids to any device.

📥 Play offline
Save a pack to the tablet before a trip and solve it with no internet.

🔊 Read aloud
The Aa button reads puzzles aloud for early readers.

🔤 Easy to read
A dyslexia-friendly font, bigger text and high contrast, on every page.

NEW · FOR TEACHERS AND SCHOOLS

From lesson plan to gradebook

New tools fit the way a teaching week actually runs: build activities from what you're already teaching, play a puzzle together as a class, and get the results into your gradebook.

Lesson to puzzles

Paste a reading passage. Puzzld picks the key words, you trim the list, and get a matched set in one go.

Live class mode

Start a puzzle for the whole class. The projector shows the join code, a clock and a live leaderboard.

Due dates and gradebook

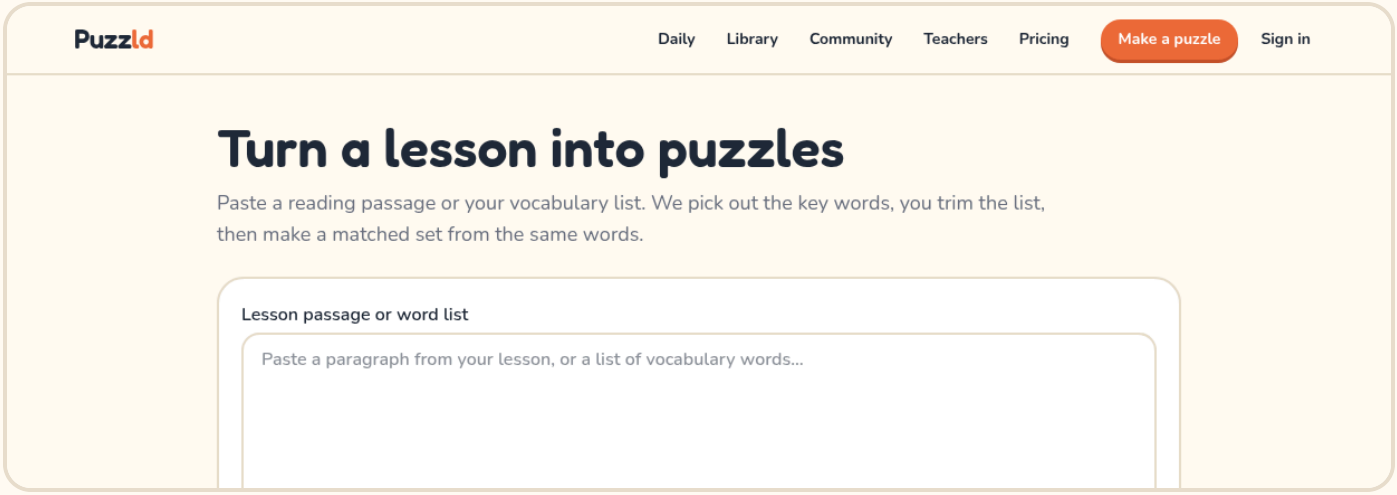

Set due dates, see overdue work at a glance, and download a CSV with finish dates and late work.

One word list, four activities

A whole week from one passage

The same words carry through every activity, already filled in.

- 🔤 **Word search** — A first look at the words. Free with your own list.
- ✏️ **Crossword** — Clues written for the age, so kids think about meaning.
- 🃏 **Flashcards** — Add meanings and print them double-sided.
- 🎯 **Bingo** — Read definitions aloud for a Friday review game.
- 🍂 **Holidays & seasons** — What's coming next, with free printables and party packs.
- 🤝 **Partner packs** — Branded packs for museums, zoos, hotels and clinics.
